Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

nose gear & strut damaged, prop, nose wheel, lower cowling

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

I was landing, to take on fuel. Upon landing the aircraft, which was not one of my better landings, I planted the main gear. I brought the nose gear to the ground a little hard. I believe at this time, it blew the front tire out which I believed caused the nose strut to collapse down and the reaction of the strut was to push back up which caused me to porpoise, the aircraft stalled and came down on the front wheel. I slid down the runway, off into the grass and flipped upside down.
