NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State time and point of departure, intended destination, and services obtained.

During takeoff roll engine power was maximum and then lost significant amount of indicated torque. Temp and compressor speed went to the redline and torque lost approximately 25 percent of full power. Airplane broke ground but would not climb or sustain level flight. Wasn't sufficient time to dump load or part of load and airplane stalled left wing first and impacted the pond at end of airstrip. Time of accident was 3:00 PM on the Fruge Airstrip. The flight was application of dry fertilizer on rice.

RECOMMENDATION (How could this accident/incident have been prevented?)
