Subject: CEN16FA014 -- Pilot-Rated Passenger Info

Follow Up Flag: Follow up
Flag Status: Flagged

Inspector Gaffney,

Thank you for providing the pilot certificate and flight time summary for the pilot-rated passenger (Mr. David Schneider)...

From your summary (below), it appears that the last recorded flight was completed on 18 July 2014 and it was a flight-review. His total recorded flight time was 245.8 hours, none of which was completed within the 12-month period before the accident. His last medical certificate was issued on 04 Feb 2013.

I will continue to refer to Mr. Schneider as a pilot-rated passenger for the accident flight. As such, I do not need any additional pilot information.

Sincerely,

Andrew Todd Fox

Subject: Nebraska RV4...

Todd,

I talked to David Schneider's widow yesterday. (Nebraska RV4 fatal passenger) She gave me his pilot logbook. I made a complete copy of it. Not sure what you need, but here is the break down.

David A. Schneider (Private Pilot # [REDACTED]) no instrument rating

Private checkride on 03/11/2008.

Last flight review 07/18/2014. (this was also his last logged flight)

Total Time 245.8 hours

Zero time during the past year

Last medical 02/04/2013 (expired)
