

CONVERSION MEMORANDUM

Michael J. Folkerts
Aviation Accident Investigator
Central Region

The Piper PA-28-140 airplane flight manual, revised in August 10, 1970, listed stall speeds in miles per hour (mph). Downloaded data from the GPS navigation device recovered from the airplane was in knots. To assist reading of the factual report, flight manual stall speeds were converted to knots. A conversion factor of 1 mph = 0.868976 knots was utilized.
