Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Flying at about 1200 Feet Headed Toward my home after leaving
 Sherman Municipal Airport where we had been practicing, landings and
 other operations. My Instructor Dan slowly rolled ~~off~~ down the throttle to
 simulate Engine Failure. Once the throttle dropped i lower the collective and
 looked for an ^{appropriate} ~~appropriate~~ place to make my landing. ^{Then} i noticed the
 Engine RPM Gauge was reading Zero. Dan noticed this also i believe as he
 also was on the controls so that we could attempt our landing. I remember
 saying ~~to~~ there at about 25 feet after that i am not sure what happened.
 I feel we did not slow the descent enough before contacting the ground where the
 Aircraft Rolled to the right side Pinning Dan in his seat and the ground. I
 unbuckled my Seat Belt and fell to the ground. I Tried to fall Dan From the
 Aircraft But his arm was pinned under the helicopter. I then decided to go get help.
 The First house I came to was Empty so I walked to the next house where I
 found someone to call 911 and take me back to Dan to try and Help him. The man
 was able to push back the corner of the aircraft enough that I could pull out Dan. ~~then~~
 At that Time EMS Arrived and Tried to help Dan and my self.
