NARRATIVE HISTORY OF FLIGHT <i>(Please type or print in ink)</i>		
Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible. Departed KGKY at approximately 10:30 am 2/16/2016 for KCLL, no services obtained, received flight following with Arlington ground. Contacted Easterwood tower after handoff from Houston center approximately 14 miles north of KCLL. Easterwood tower reported contact and authorized cleared to land. At approximately 10 miles north and 3000+ft during descent we experienced smoke in the cockpit, which I immediately reported to Easterwood tower and asked for alternate closest airport. Both passengers reported hearing a loud "clank" from the engine immediately prior to the smoke. The engine quickly failed and prop stopped completely, attempted restart, engine seized would not restart. I immediately contacted Easterwood tower to inform we were not going to make alternate and asked tower to declare an emergency. I chose the closest pasture to attempt landing, confirm passengers had safety belts, put gear down, clipped tops of oak trees at edge of field and crashed. Pilot door would not open, my wife Kay successfully opened passenger emergency door/window and crawled out followed by my mother Melinda the rear seat passenger and myself to safety as feared explosion as aviation fuel pouring from wing. I made sure passengers were stable and safe distance away and called 1800wxbrief to report crash at 11:32am and asked them to call Easterwood tower to report position for rescue and was instructed to hang up and call 911. I connected with 911 at 11:38am, who coordinated rescue operations successfully. We thank God daily for his protection and mercy during and after the engine failure.
