Around 9:00am this morning, I noticed an airplane circling around a tree in field beside my house, the plane came from nowhere & dropped down from sky & crashed to ground. I seen the propeller when it came off plane then the plane caught fire & a loud explosion. I immediately called 911. I then rushed to the scene to try to help the man but could not get close to plane but seen the man on fire, I was yelling HELP & are you ok, but no response. I then ran back to my car, went to my neighbors knocking on their door for help but no one answered, so went back to the scene because I saw 2 people drive up, they also tried to get close to plane to help but they couldn't & one of the guys said plane-driver was not not alive.
