Subject: FW: 150 Pics of N51242 log books

Joshua,

Attached are pics of the log books for N51242. I'll send pics of the acft shortly.

Regards,

Jaime L. Pagán
Aviation Safety Inspector
FAA, Flight Standards District Office
Oklahoma City, OK

I have attached all logs for 51242. They are too large to send as attachments, so the above are links to google drive documents. If they don't work for you for whatever reason, let me know.

I have also attached a picture of the report from the prebuy inspection I had done just a couple of months ago. As I have been going through the pictures and logs I am realizing just how much I actually came to love this little plane. She's carried me to 23 airports across 7 states and added about 100 hours to my logbook over the last 2 months. This was my first plane, so the sense of freedom was more than I ever dreamed of. I'm sure you have put in your time in a 150, but it's honestly been an amazingly enjoyable little airplane. I might just miss her. Gotta make room in the hangar for something a bit faster though.

I know that everything here is just a bunch of pictures. I did not go through and try to read everything, so if anything is hard to read, and you would like better pictures, please let me know.

Also, as I mentioned over the phone, if you choose to buy and need a hand or another pilot for any part of the ferry, let me know. I would be more than happy to fly her out to OK if we can arrange a way for me to get back home. I have played the ferry game before and it can be a pain in the butt, so I'll do everything I can to make things as painless as possible.

Thanks,
-Ian

Please let me know if you want additional pictures of anything specific. I can drive out to the airport and get whatever you'd like.

Cheers,
-Ian
