Subject: N51242
Attachments: N51242 pre-buy.pdf

Hi Josh,

The annual was done by a mechanic, Maynard Stensrud, I think, in Mankato, MN. The pre-buy was done by North Star Aviation. Presumably the same place, although I didn't notice that until after the accident. Ian produced the pre-buy invoice, copy attached, which he had done just a couple of months earlier. He had only flown the airplane 105hrs so I felt that was acceptable for my ferry flight to KRVS where by contract, I had 30 days to complete a pre-buy by my IA to then finalize the purchase. My IA had reviewed all the logs and had instructed me as to the areas of special inspection during the pre flight. We completed a Bill of Sale, but my contract had the 30 day pre-buy clause at my airport included.

If I can be of further assistance, please call.

Regards,

Dale Cuckler
