Subject: CEN16LA228 -- Wreckage Release

Importance: High

Follow Up Flag: Follow up
Flag Status: Flagged

Mr. Rogers,

The NTSB and FAA have completed all examinations of Cessna model 172S, serial no. 172S9635, registration no. N21767, that crashed shortly after takeoff from Deming Municipal Airport (DMN), in Deming, New Mexico, on 10 June 2016.

The NTSB/FAA did not retain any components from the accident airplane.

The entire wreckage is now considered released and you can proceed with any salvage that you and the owner have previously agreed upon.

Sincerely,
Andrew Todd Fox
NTSB, Air Safety Investigator

Subject: RE: CEN16LA228 -- Airplane Insurance Contact

Ms. Booth,

Thank you for providing the insurance contact information... I will coordinate the wreckage release with Mr. Rogers when we have completed our follow-up work (likely within the next couple of weeks).

Sincerely,
Andrew Todd Fox
NTSB, Air Safety Investigator
