Narrative History of Flight

July 12th, 2016

I arrived at Grayling airport (kgov) approximately at 08:00. Checked automated weather, then I proceeded to pre-flight my airplane. I taxied to runway 32. Performed run up. I then took off. I flew over lake Margrethe, then I flew South to 5Y2. I landed on runway 34. I waited until around 10:00 a.m. I was told that the first group of people were ready for a ride. I said I would take the 3 lightest. I then helped the 2 children into the back seat and help them buckle up their seat belts. I then got it and the front passenger got in, and I showed him how to use and connect the seat belt. I then taxied to the end of run way 34. I performed the run up, then after alerting Houghton Lake traffic we took off. I climbed to 2500 feet. We flew around the Houghton Lake area and Houghton Lake. I then entered the pattern for run way 34 at 5Y2 at 2000 feet. I performed a pre landing check list. I then turned base, everything look good, altitude, angle, and speed. I added one notch of flaps. Altitude, speed, and position looked good. I then turned final and again, all looked good. I added another notch flaps. Position continued to look good. I was in my decent, I crossed a line of trees on the golf course, at the end of the run way. As I crossed the trees I hit a down draft and dropped. I attempted to recover but my wheel hit the top of an old wire fence at the end of the run way. I went nose down and hit the run way. The nose gear collapsed and we skidded to a stop at the end of the run way. After stopping, I asked if everyone was OK. They ALL responded yes. I said lets get out. We exited the plane safely. When EMS arrived we were all checked out and released with one passenger having a minor scrape on one hand and I had two minor scrapes on my hand and knee. The plane was then removed from the run way and housed in a secure locked hanger. Police report was given, and then I was released.

This is my true and honest statement as Pilot.
