

There was a witness, John Paul Conner [REDACTED]. I spoke to him this morning. He stated:

He was working in a field north of the accident scene when he heard the engines of an aircraft, as he looked up he saw a small aircraft descending. The aircraft attempted to land in the Fisher's pasture, the propeller hit the fence in the middle of the field and crashed to the ground. He called 911 and drove to the accident scene. Once there he stated all three passengers were out of the aircraft, he saw fuel pouring out of the wings onto the ground and got the 3 occupants to move to a safe distance from the aircraft. At which time the police came on scene and took over.
