NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Started preflight inspection at 6:45 pm. Added fuel cleaned windows and prepped plane before take off. Taxied out and took off at our farm at 7:30 pm. Landed at Millers Airport at 7:35 pm. Did a walk around of the aircraft after landing. Picked up Cassidy Christman and proceeded to taxi out to the runway at 7:40 pm. Took off at Millers Airport at 7:45 pm to the west. Scouted corn fields for an hour and then we returned to Millers Airport and touched down at approximately 8:40 pm. After landing we decided that the weather was so nice we were going to do a quick go around of the airport. Taxied to the east end of the runway and began take off at about 8:45 pm. We took off towards the west and cleared the airfield and began our initial climb. At approximately 500 feet the left wing of the aircraft began to dip. I checked our air speed and we were at 60 knots. At this point I tried to level the wings with moving the stick to the right. There was no response the wing still was dipping further. I then tried right rudder along with right stick and was not getting any response. I then turned into the dip as we were losing altitude. The nose was pitching over and at this point we were at 70 knots. We went into an downward spiral to the left. I was still trying to level the aircraft off. Before hitting the corn I was able to pull the nose up so that it was not a direct impact to the ground. The last thing I remember was hitting the corn and pulling hard back on the stick to try some type of flare before hitting the ground. After hitting the ground and coming too and realizing the situation I was able to make the initial call to 911 at 8:50 pm.
