I SEAN MOORE hereby make this voluntary statement to

TRE L. WOODARD at Sean

on Sept 4, 2016. I was sitting at my pool on a lounge chair facing my house when I heard the sound of an airplane. My wife and my son said "Look he is flying his plane today" referring to the plane my neighbor sometimes flies. I saw him heading from the tree line over my right shoulder. I turned and knew something was wrong because he was only about 200 feet approx and not climbing. I heard his engines stall out completely (it was an obvious stoppage of engine noise).

I heard the pilot yell something inaudible but he knew he was going down. Then the plane did a direct nose dive straight into the ground at this angle. I instantly ran straight to him, on my way to the plane I called 911 on my wife's cell phone. After I gave my address to the 911 controller, I gave the phone to my wife and I climbed up on the plane. The pilot was moaning and I saw him slumped way down in the cockpit having his seatbelt on. He had severe trauma to his face and legs. I held his hand and prayed with him until officers and squad/fire dept arrived.

My family was out at our pool when
At around 6:40 Sunday 9/4/16 ~~off~~
our neighbors took off from his runway
behind our home. He did not have
much altitude and as we watched
my husband, son and I began saying, "What
is he doing?" and then heard his engine
cut out. He tried to gain altitude
and then just lost it and ~~not~~ dived
into our swing set tree area. It
may be took a small bounce. It
was not super loud at all. ~~He~~
~~He~~ He hit just the edge of
the swing set. He yelled something
as he was going down. We went
over to him as soon as it landed and
called 911.
