

RECORD OF INTERVIEW

Michael J. Folkerts
Aviation Accident Investigator
Central Region

Date: July 9, 2017
NTSB Accident Number: CEN17FA259

Mr. Darren Durdin was a witness to the accident and provided the following information:

- He was a passenger in a car, traveling westbound on Highway 226.
- He noticed the airplane spraying a field about ½ mile south of Highway 226.
- The airplane was flying at low altitude to the north (towards Highway 226) and pulled up.
- While in a turn, he noticed the airplane began to spin and the nose dropped.
- The airplane continued to spin for about three rotations and subsequently impacted the farm field with a nose low attitude.
- He noticed what he thought was possibly fuel spraying out of the airplane as it descended.
