

RECORD OF CONVERSATION

Timothy N. Sorensen
Aviation Accident Investigator
Central Region

Date: November 29, 2016
Person Contacted: Reed Jarman, Air Transport Recovery
NTSB Accident Number: CEN17LA030 – Bloomfield, New Mexico

Narrative:

Mr. Jarman recovered the airplane from the accident site. He stated that 50 gallons of fuel were drained from the fuel tanks before the airplane was relocated from the site. The fuel exhibited a blue tint consistent with 100 low lead aviation fuel. In addition, the fuel appeared to be free of contaminants or sediment.
