Subject: Re: Meeker, CO

Hi All,

To answer your questions below:

I stored N5VK in a hangar at Meadowlake Airport (KFLY) in Falcon, CO since September 2016. Before that it was stored in a hangar near Poplar Grove, IL.

It was flown personally by me since September 2016. Mostly local flights in Colorado, but some trips to Phoenix, Utah, and New Mexico.

It was fueled mostly at Meadowlake Airport, self-serve. I topped off at Provo Airport (KPVU) the morning of the Jan 7th flight with TAC Air FBO's fuel truck.

Please let me know if you need additional information.

Thanks,

Russ
