

RECORD OF CONVERSATION

Joshua Lindberg
Air Safety Investigator
Central Region

Date: 2/27/17
Person Contacted: Richard Ball, Lone Star Retrieval
NTSB Accident Number: CEN17LA105

Narrative: In a telephone conversation with Mr. Ball, he stated the following:

- He disassembled the airplane for transport to Air Salvage of Dallas (ASOD)
- During the disassembly of the left wing, he found less than one cup of liquid in the left fuel tank
- The right wing was previously separated from the fuselage and the right wing fuel tank contained no liquid

End of conversation.
