Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Was able to land without any damage but fire destroyed the Aircraft

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

I self-declared left out of TAP SAT, incoming around 7:38 AM 4-8-17. I was headed NNE direction to spray up in China Tx. At around 7:46 noticed a burnt wire smell started looking @ gauges & saw oil pressure was @ 50 psi called in on radio said I was losing oil pressure and had to find a place for to land. During that time the cockpit started filling up w/ gray smoke; vent would not stay shut so I opened left side window to vent. When I opened window could feel heat when I looked out could see fire so I closed back to deal with the smoke. At this time smoke turned jet black & I was coughing, gasping, choking, puking, crying & wanting out of the situation. Had airplane timed to what I was hoping was close to right not being able to see I felt the fuel shut off & closed it. ~~I thought the only~~ I started dumping my load but starting pitching up. I knew that was the wrong way so I stopped. I thought the only thing that was going to help me is the engine quit working. Shortly after it did do to either lack of fuel or just locked up really didn't care but when it did I was able to open side window let the smoke start venting which gave me 8-10 seconds to try & find a place to land. Dumped the rest of chemical cause didn't want plane to flip over. & land glided over some trees & fences to land out in Randy Anderson Hwy field
