FAA STATEMENT

4/17/17

My son and I had flown to Newton's airport and went into the terminal for approximately 10-15 minutes. We then took off, heading back to Knoxville's airport. We had no indication of any problems during this return flight.

We landed at Knoxville about 13:30 hours. We had gotten out of the plane; I checked to see how much fuel we had used, there was 10 gals still in the tank. I did a walk around the plane, getting ready to refuel.

I saw a man walking toward the plane; he introduced himself as Jeff Jorgenson. I remembered my brother talking about him considering being a CFI for Gyro's. He said my brother had told him he would take him up when he had time. I offered to take him up and he agreed.

From my son's video it shows us taking off at 1336 hours, using runway 15. It was a normal takeoff and power was good. Soon after leaving the end of the runway we started losing altitude. I turned right (West) to return to the airport, we were headed northwest towards the airport. I was planning on landing in the farm field just south of the airport but did not have enough altitude to get over the power lines. I turned back to the West but the rotor clipped the one power line.

I remember Jeff and I asking each other if we were OK, we both said yes we were alright. I then noticed the grass burning in the ditch to the East of us. I had trouble releasing and getting out of the harness.

Jeff and I got out of the plane and I turned the gas tank valve off.

People from the airport arrived, then Knoxville PD and FD including rescue and Marion Co. Sheriff's office. Jeff and I both declined medical attention and signed releases.

After pictures were taken etc, the plane was taken to our hanger #114 at Knoxville's airport.

I was informed the plane went down about 13:41 hrs.

After talking with my insurance company they suggested I go to the doctor, which I did, other than some bruises and sore spots that I feel today, he said he thought I was fine.

The above statement is true to the best of my knowledge.

Miles F. Loomis
