NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Crew performed normal preflight and power on checks approximately 1 hour prior to accident. Just prior to the accident the First Officer was on the flight deck monitoring the APU and the flight attendant was in the main aircraft entrance doorway waiting for the bus to get to the aircraft with the airstair door open. Captain was inside the FBO until the bus arrived, captain then proceeded to the aircraft and check with the First Officer and Flight Attendant to ensure everything was ready for passenger loading.

Charter bus was bringing collegiate athletic team to the airport with the intent of them flying on the accident aircraft home after the match.

FBO let the charter bus through the gate, there was no one escorting the bus. The Captain was given two different stories regarding the escort. The bus driver said the line guy working told him to just proceed to the airplane when he pulled through the gate. The line guy said that the bus driver just pulled away from him without giving him a chance to escort him. No line personnel was marshaling the bus. There were no cones placed around the aircraft perimeter.

Crew reported that all of a sudden the aircraft moved violently, crew immediately evacuated the aircraft and saw the charter bus in contact with the LH wing training edge in the area of the aileron and the bus immediately backed up.

Captain immediately contacted Flight Operations and the Director of Operations to inform them of the accident. Passengers were not allowed to board the aircraft. Captain send pictures of the aircraft and bus to Flight Operations. Captain arranged for local LEO to come out to the airport and do a report. Captain was in contact with airport management.

Aircraft was powered down and secured for the evening and a discrepancy entered.

At no time were the aircraft engines running.
