Weather Data: Cleburne Regional Airport (CPT) automated weather at 2215Z (1715 LCL)

Wind was 130 degrees at 14 knots, 10 statute miles visibility with few clouds at 6,000 feet.

Barometric pressure was 29.81 inches

Remarks: Aircraft departed from Blackwood Private Airpark (TX46), located at 3319 N. Main St., Cleburne, TX 76033.

Coordinates: 32 24' 29.81"N 97 23' 10.98"W. Airport has a North/South runway. It departed to the south with just the pilot on board. It is believed that at the departure end of the runway, the aircraft engine lost power. The pilot attempted to turn around and return to the runway. The aircraft lost altitude and collided with a fence and trees adjacent to the departure end. The aircraft came to rest at the following coordintes: 32 24' 22.55"N 97 23' 15.66"W. The aircraft was destroyed.

The pilot was found deceased at the scene. The body was recovered by the Johnson County Medical Examiners Office, Cleburne, TX 76033. The Medical Examiner on the scene was provided a North Texas FSDO Toxicology Box.

The aircraft wreckage was picked up and transferred to Lone Star Collision & Towing, Cleburne, TX 76033.
