Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Tail impacted fence, prop strike on fence, nose wheel, throttle cable tube bent.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Base to final turn was wide due to unknown placement of runway. I banked to line up with the runway; airspeed was 45mph, as I was approaching the threshold I was still in a bank. I tried to straighten airplane and was unable. I applied power to keep from getting slow. Next thing I knew I was spinning on the ground and heading for the fence. I held left rudder to continue spin to try to stop plane from contacting fence. I contacted fence with tail. I immediately shut down engine, all other electronics and master. There was no gas shut off valve. I then exited airplane.
