1/11/2018
Work Order # 12622

TT A/C: 6939.1 hr
6964 Landings

Gained access and installed new hydraulic line Cessna part number 5717022-17. Serviced hydraulic system with two gallons of 5606 hydraulic oil and performed landing gear and flap operational checks.

-----END-----

I certify that the above stated maintenance and/or inspection was performed in accordance with the current Federal Aviation regulations. All inspections were performed in accordance with FAR 91.409 (f) (3) and the aircraft component identified above is presently airworthy and is approved for return to service.

DANDON R. A. A. i. - h. m.

N771XW CESSNA 441 S/N 441-0065 December 20, 2017

Validated that the previous installation of one GNS 530 and one GNS 530A was installed IAW Garmin instructions and approved via an FAA- stamped field approval document on FAA form 337 dated 4/14/2004. Verified this aircraft and all interfaced equipment are covered under the STC AML. Both units were removed and upgraded to GNS 530W units. The existing locations of the two units were determined to meet the field of view requirements without the need for external annunciation. The existing RG-400 GPS antenna cable was used. The two existing GA56 antennas were removed and replaced with two GA35 antennas using approved mounting provisions of the previous installation.

1. Removed two Garmin GA56 Antennas P/N 011-00134-00 and installed two new GA35 GPS/WAAS antennas P/N 013-00235-00, S/Ns 140619 and 140605 using the provisions left behind from the standard antenna IAW Garmin upgrade manual P/N 190-00357-06 Rev. E and STC no. SA01933LA.
2. Removed Garmin GNS 530 P/N 011-00550-10 S/N 78410041 unit and installed Garmin GNS 530W P/N 011-01064-40 S/N 78410041, using provision left behind from the standard 530 unit. Installation done IAW Garmin upgrade installation manual P/N 190-00357-06 Rev. E and STC no. SA01933LA.
3. The GNS 530W was configured identical to the original 530 unit. each interface was checked out IAW the 530W installation manual P/N 190-00357-02 section 5. A copy of the check out log was completed and included in the aircraft logs.
4. Removed Garmin GNS 530A P/N 011-00835-00 S/N 46350252 unit and installed Garmin GNS 530W P/N 011-01064-40 S/N 46350252, using provision left behind from the standard 530 unit. Installation done IAW Garmin upgrade installation manual P/N 190-00357-06 Rev. E and STC no. SA01933LA.
5. The two GNS 530W were configured identical to the original 530 units. each interface was checked out IAW the 530W installation manual P/N 190-00357-02 section 5. A copy of the check out log was completed and included in the aircraft logs.
6. Removed the Aircraft Flight Manual supplement for the GNS 530s and installed GNS 530W AMFS P/N 190-00357-03 Rev. F. FAA approved date 11/30/2017 into the Aircraft Flight Manual.
7. Updated aircraft Equipment list and weight and Balance to reflect the new WAAS units. The current electrical load analysis remains valid since the new units draw the same or less current then the original units.

Instructions for Continued Airworthiness (ICA)

1. GNS 530W - Included Garmin document P/N 190-00357-65 Rev. D instructions for Continued Airworthiness in the aircraft maintenance records.

User/Installer Responsibilities						
It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1. Statements in Blocks 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by user/installer before the aircraft may be flown.
