

RECORD OF CONVERSATION

Timothy N. Sorensen
Aviation Accident Investigator
Central Region

Date: April 19, 2018
Person Contacted: Todd Poling
NTSB Accident Number: CEN18FA140 – Friona, Texas

Narrative:

Mr. Poling confirmed that he had previously owned the accident airplane. He bought the airplane in 2006 and had flown it once for 2 or 3 hours in the spring of 2007. He recalled that during the flight he encountered turbulent wind conditions and he never flew the airplane again. He noted that there were no issues with the airplane. He did periodically run the engine and he had several friends that would fly it occasionally.

Mr. Poling reported that the airplane was sold to Jake Hefner about 2 years ago, in early 2016. He did not file any paperwork with the FAA related to either the purchase or the sale of the airplane.
