

MEMORANDUM OF CONVERSATION

Accident Number: CEN18FA262

Location: Moriarty, New Mexico

Date: July 16, 2018

Subject: Interview with Mrs. Sandy Terry, Witness to the accident of a Schempp-Hirth Ventus 3F motorized glider that occurred on July 10, 2018

Mrs. Terry reported she was driving home when she saw the glider. She'd just turned onto the road to her house. It was after 4:00 pm, as best she could recall. She said it was the same road that would take you to the Moriarty Airport. She said the glider was in a nose down attitude and very close to the ground. She thought it was odd that the glider was so close to the ground and that maybe he was going to land. When she made the turn into the court where her house was, she lost sight of the glider and did not see it again.
