Subject: Brentley Smith's Statement

Below is Brentley's statement.

Brentley Smith

When we arrived the first plane was already in the air before we pulled in. We saw it take off from the highway. We hung out and socialized with everyone. The plane came back down. Landed, first group got out, second group got in. Second flight was shorter. When the second flight came in, we loaded up. Daniel just got out of the swimming pool. Got in the back, Ely got in the back w/ me, Daniel got in the front. Scott was still in the plan. Bucketed Ely, cinched his belt. Buckled by belt cinched it. Took a selfie with Ely in the back right before take-off. Remember going down the run way and next thing I remember was trees.

Partially remember walking around and sitting back down on the wing, after the accident. Woke up in the hospital.

If need to call, Brentley's number is [REDACTED]
