Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

I have not been to the site but I know the aircraft is destroyed by impact and fire.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I, Johnny King, dispatched Kyle Hollis to spray a 18 ac cotton field at just SE of the circle store on the south side of Highway 70 west of Cotton, Texas. The job required 3 gallon per acre so the airplane left XA05 with 54 gals (a very light load) and approximately 90 gals of Jet A (just a guess) Kyle fueled the airplane himself. I left XA05 to spray a field north of Spade Texas, while spraying this field I heard my private line business band radio break squelch and a gasping noise was transmitted over the radio. I know now that's when things started going bad for Kyle. I'm ^{think} sure Kyle gripped the

stick tightly when all this started. The push to TALK is located on the stick in a position where ~~is~~ if squeezed tightly would be activated. I know this ~~is~~ when it all started because I had a pickup at Littlefield and a driver helping me load my next few loads, when landing back at Littlefield (LIU) the driver said he heard the same transmission on the radio. For the driver to hear the transmission Kyle had to have altitude because when both units are on the ground my radios only have a 5 mi range at best. The distance between the pickup (Littlefield) and the crash site is 20 miles. Shortly after hearing the gasping transmission my office called letting me know of the crash.

I HEREBY CERTIFY THAT THE ABOVE INFORMATION IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE
