was driving 70 west Hwy, saw plane seem to be banking left and up then lost him in the sun. Saw smoke, fire and didn't realize at first what had happened. Past up crash site, pulled over and talked with co-worker was that the plane is asked? he said I think so. Drove back to site, seen older gentle men putting out pilot who was on fire! Asked him did you call 911? he said call them! So co-worker called 911 and give him location. Covered pilot up with jackets and towels. Older gentleman and pilot asked to call his employer. We did call his employer "King Ag" spoke with a lady and she was very concerned Told her I have to go, she said please call back, we did not.

I was traveling South on FM 1842 when I saw the plane flying North. The plane banked around to the West and went down in the grass field: burst into flames. The pilot was North of the plane on fire - rolling on the ground. I took off my jacket to help put out the fire and got the rest of his clothes that were burning off. He was awake and talking with me. He gave me a phone number, he said for his parents, I called [redacted] but no answer. I stayed with him until the ambulance arrived then gave statement.

The plane was about approx 300 ft off the ground when it banked and crashed. My view of the actual crash was blocked by a white horse trailer approx 50 or 60 ft North of the burning plane. The pilot, Kyle, was rolling on the ground on fire.
