

RECORD OF CONVERSATION

Joshua Lindberg
Air Safety Investigator
Central Region

Date: November 29, 2017

Person Contacted: Vic Liberatore, FAA Inspector

NTSB Accident Number: CEN18LA043

Narrative: In a phone conversation with Mr. Liberatore, he stated the following:

- He responded to the airport and examine the runway and the airplane
- He found the tire marks that corresponded to the accident airplane and led to the location where the airplane nosed over on the runway
- He will send photos of the tire marks on the runway and the damage to the airplane
- The airplane's wing struts were both damaged and needed repair
- The top of the vertical stabilizer had some minor damage
- He tested the brakes and they worked with no anomalies noted

End of conversation.
