I, Kayla Arman on this 11 day of July 2018

Do hereby give my voluntary statement to the following circumstances:

My mom, ~~my~~ cousin, her boyfriend, baby brother, and I were all sitting out by the river behind our cabin (73) throwing rocks into the river and all the sudden I heard a crash. My dad was on the deck and he started running so I followed him. He ran across the grass where planes take ~~off~~ off and my dad and I were the first ^{Scene} ~~to~~ people to arrive ~~to~~ to the ~~Scene~~. My dad told me to stand back just in case the man was no longer living or just in case there was leaking gas. The plane landed right past the pond. I am studying nursing school so I wanted to help as much as I could. A second man arrived to scene was a doctor and he help pull him out while I hold the door open. I checked his pulse and checked to make sure his eyes were ~~not~~ dilating. I ^{kept} ~~keep~~ asking general ~~questions~~ and then ^{tried} ~~to~~ to answer his questions like "Where am I?" I helped wipe blood off of his cheeks and keep blood from reaching his eyes. Other people arrived and I

Voluntary Witness Statement Form

I, Amanda Arman on this 11th day of July 2018

Do hereby give my voluntary statement to the following circumstances:

As my 3 year old was tossing rocks into the river along our cabin 73, I heard a plane taking off. I noticed I couldn't see it well and it was sputtering. The only way I can describe it by seeing it, is I could see the silhouette of the plane through the trees. As soon as I could tell that it was actually a plane, it immediately took a sharp left turn and fell nose down. I could see the whole under carriage including nose of the plane as it fell to the ground. I knew it hit the ground because it sounded like 10 cars colliding together. As soon as it crashed, I started screaming to go get him out. I was scared it would explode. I started running, my husband and daughter passed me. My husband got to him first and broke the door open. I was not allowed to go closer by my husband due to him thinking the plane would explode.
