Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Damage limited to aircraft only. Substantial damage to front of aircraft including propeller, nose gear, and lower fuselage.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departing from runway 24, I noticed degradation of aircraft performance, low airspeed, and decreased rate of climb. I reported this problem to the tower and was cleared to land on any surface. Attempting to land on runway 14, I realized I was going to overshoot the paved end of the runway. I landed in a grassy field to the southeast east of runway 14 on airport property. The terrain was rough with tall grass. The aircraft came to rest in a 5ft ditch.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

The pilot committed to land following perception of engine malfunction. Had the landing surface been smooth and flat, no damage to aircraft would have been sustained.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
