Results confirmed by gas chromatography.

This report contains the conclusions, opinions and/or interpretations of the laboratory analyst whose signature appears on this report. This analyst is qualified by education, training, and experience to perform this analysis and does so as part of his or her regular duties. The analysis was conducted in an MSP laboratory accredited under the ASCLD/LAB international testing program since July 26, 2012.

The relevant supporting data upon which the expert opinion or inference was made are available for review/inspection.

The reported alcohol level is the average of two measurements which agree within 5% or 0.005 g/dL, whichever is greater.

IMPORTANT: *The specimen(s) will be held for 2 years after date received and then be discarded.*
