Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

The aircraft was completely lost. No damage to property.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

On Saturday 01-19-19 at 1:15 PM CST I departed IMT airport in my PA-18 N3298Z, for a short sight seeing flight with intention of returning and landing at IMT airport. At 1:30 PM after an uneventful flight I initiated a left hand turn at approximately 800 feet AGL over Lake Fumee. During the left turn my attention was distracted to a distant point at the far end of the snow covered lake (to my left). The flight attitude of my aircraft was compromised by the loss of reference to the natural horizon, continuing in a descending left turn impacting main gear, left wing, right wing then nosing over . I evacuated the aircraft with minor injuries.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

After carefully trying to review the moments preceding impact it is apparent to me I lost my depth perception while turning over the snow covered lake. I believe this could have been avoided had I maintained situational awareness of the terrain features and corrected for the loss of vertical component of lift while in the left banking turn.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
