

NATIONAL TRANSPORTATION SAFETY BOARD
Central Region - Denver, Colorado

Record of Conversation

Person Interviewed: Shawn Engebretsen
Subject: – CEN19CA237
Date: 7/26/19

During the conversation Mr. Engebretsen stated the following:

He was piloting N7976A as part of a formation flight at EAA Airventure. He said that during a formation landing with a quartering tailwind the airplane ground looped and went off the runway, scraping the left wing. He presented pictures of the damaged wing that showed scraping damage to the left wingtip and aileron, and a broken aileron hinge. The outboard hinge to the aileron had fractured and required replacement.
