

Record of Telephone Conversation

Name: ASI/PMI – John M Palmer
Address: ATL FSDO-11
Phone: [REDACTED]
Date: 10/15/2018
Description: Phone conversation with Molly Guzowski and Mr. and Mrs. Guzowski
[REDACTED]

A telephone interview conducted with Mr. Guzowski and his daughter Molly Guzowski on 10/15/2018 at 1418EDT. The reason for the telephone conversation was to interview Molly Guzowski. Mrs Amy Guzowski called the Paulding sheriff department stating that her daughter Molly Guzowski may have seen the aircraft (N180QT) flying very low prior to the incident. Eyewitness names and telephone number was given to the FAA IIC on the morning of October 14, 2018.

The interview was initiated with Mr Guzowski permission to talk with Molly over speakerphone due to eyewitness was a minor age 9 years old. I ask Molly where she was when she first heard or seen the airplane. She replied that she was outside of her house by the swimming pool. The Guzowski house is located [REDACTED]. She continued said *it was very loud, wiggling the wings back and forth and, it was going to fall on her*. She commented that she was very scared. I ask her to describe the airplane she stated *white and blue and loud*. I ask which way did the airplane go? Did the airplane go from front of the house to the back or from the side to side over her or beside her? She stated *it was very low like it was going to fall it went front to the back of the house then she heard a bang she ran in the house* because she said *it scared her real bad*. Mr Guzowski also during this time said it would *be west to east and he heard the aircraft but did not see the aircraft*. Mr Guzowski was inside the house. Mr Guzowski stated *that the airplane sounded loud while passing over engine was surging he also might have heard the bang* and stated it was most likely backfiring.

Discussion ended with concern for Mr Deep family and if they could help with anything else to feel free to call back.
