Subject: POTENTIAL SPAM MESSAGE RE: Short statement in reference to the P51 flight

Ed,

After reviewing the tape again, I put the takeoff at 1459 local. As for the mishap flight, I do not have anything to add because I did not witness any portion of the flight. As for his earlier flight, I was driving down Elk street (next to the Nimitz Pacific Combat Zone theater) at about 11:15, and I witness his fly over. I did not see any aerobatics, and I estimate he was well below 1000' AGL on the flyover.

Sorry I cannot provide any more details.

Once last thing...Here is the name of the individual who was videotaping the loading of the veteran prior to the flight...Tyrus Cobb, [REDACTED]

Tony Lombardi

Gillespie County Airport (T82) Manager
