-- Conditions and Limitations --

This aircraft does not meet the airworthiness standards of Annex 8 to the Convention on International Civil Aviation. Operations in airspace outside of the United States will require the permission of the applicable foreign authority. That permission must be carried aboard the aircraft together with this U.S. airworthiness certificate and, upon request, be made available to an FAA inspector or the applicable foreign authority in the country of operation. Operations may be further restricted by the applicable foreign authority. This may include not allowing use of an airport, requiring specific routing, and restricting flight over specific areas. The operator must comply with any additional limitation prescribed by the applicable foreign authority when operating in its airspace.

This airworthiness certificate authorizes the manufacturer named to conduct production flight tests, and only production flight tests, of aircraft registered in his name. No person may conduct production flight tests under this certificate: (1) Carrying persons or property for compensation or hire; and/or (2) Carrying persons not essential to the purpose of the flight.

This airworthiness certificate authorizes the flight specified for the purpose shown.

1. The carriage of cargo or persons other than the crew necessary for the purpose of the flight is prohibited.
2. Flight to be conducted under day, visual flight rules only.
3. Except for takeoff and landing, flights over congested areas are prohibited.
4. Prior to this flight, the aircraft must be inspected by a certificated mechanic or repair station and an entry made in the aircraft logbook that the aircraft is safe for the intended flight.
5. This authorization expires upon arrival at the destination or on .
6. Operations must be conducted in accordance with applicable sections of FAR 91.
