Subject: CEN19FA191 (Elyria, OH) Apple iPad Mini 2 & Apple iPad 9.7" 5th Generation - Email Report
Date: Thursday, January 16, 2020 10:13:26 AM

Email Report Instructions

The narrative and attachments from this email report may be used in other reports at the discretion of the IIC. This email, including attachments (if applicable), should also be placed in the public docket by the IIC.

Email Report

The Vehicle Recorder Division received two Apple iPads for this investigation. One device was an Apple iPad Mini 2 (sn f9fpw5gqflmu), the other device was an Apple iPad 9.7" 5th Generation (dmptwt41hp9y). Both devices were functional but were passcode locked. The iPad Mini 2 was passcode locked with a 4 digit numeric passcode, the iPad 9.7" 5th Generation was passcode locked with a 6 digit numeric passcode. NTSB's Transportation Disaster Assistance (TDA) specialists corresponded with the family members with questions about the passcode. TDA reported the family members were unable to determine the passcode. Other attempts to determine the passcode were unsuccessful and the devices' contents could not be accessed.
