N310 QA Accident +

DIGEST

My wife and I were parked on the ranger on Chapel Hill Rd. when we heard a loud noise and then an explosion in the field. This was at 4:45 PM. We drove to the noise, saw the crash, and immediately called 911.

We could not put the fire out so we drove to find Trevor in hopes that he had a fire extinguisher on his tractor. He did not so we went back to the crash to try and put it out. Monica took the Ranger and went to the road to meet the rescue people.

SUBJECT Investigation Accident [REDACTED]			
DIGEST			
Received a call from Mr. Greer's son Stephen. Stephen was inquiring about how to get			
information in regards to the accident. I informed him that a FOIA request would most like			
have to be made but that I would check with my management. I also asked him if he knew			
anything about the accident that could help. He said that he recalled his father telling			
him that the Left Engine had been running rich on previous flights along with fuel tank			
issues. The fuel issues were with the wing tanks. I also inquired on if he knew where his			
father's logbooks were located. He said he knew but it may take a few days due to his			
mother having the house keys. I told him to not worry and that when he was able to locate			
them I would like a copy.			
CONCLUSION, ACTION TAKEN, OR REQUIRED			
Awaiting Copies of Mr. Greer's Logbooks
