

RECORD OF CONVERSATION

Jason Aguilera
Air Safety Investigator
Central Region

Date: September 26, 2019
Person Contacted: Jennifer Watkins, FBO Employee FYV
NTSB Accident Number: CEN19FA332

Narrative:

Jennifer Watkins was an employee of the fixed base operator (FBO) at the Drake Field Airport (FVY), Fayetteville, Arkansas, that spoke with the pilot on the day of the accident.

She recalled that the pilot had returned with the FBO vehicle having dropped a friend off. The pilot told her that he was "very tired" having worked earlier that day. She thought the pilot said the he worked until 10am but wasn't sure. The pilot was initially confused about the fuel receipt which the employee thought might be because the pilot was tired. The pilot told her that he would be returning in a couple weeks.

She listened to the pilot over the radio and he sounded clear. He asked the tower for flight following and provided the call letters for the destination but could not remember what those were.

When the airplane started, taxied, and departed, the engine sounded normal. She recalled that at the time there was no precipitation, but there were some high clouds.
