DAMAGE TO AIRCRAFT AND OTHER PROPERTY**Aircraft Damage**

- ☐ None ☒ Substantial
☐ Minor ☐ Destroyed
☐ ☐ Unknown

Aircraft Fire

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Aircraft Explosion

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Explosion at Unknown Time
☐ On-Ground ☐ Unknown

Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

The aircraft settled in the water with just the top of the wing showing and about 1/3rd of the vertical stabilizer and rudder exposed. I saw damage to both wing tips. I have not seen the aircraft since then to observe any additional damage.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I flew the aircraft from 27XS (Sport Flyers) just before sunrise to KIWS. I made three landings and parked the aircraft. The fuel was topped off. The mission for the day was flying Young Eagles for the EAA Chapter 774. My first flight had the two passengers listed above. We departed runway 15, flew west along I-10 to the Grand Parkway Highway 99, then north about 5 miles. We then turned east and entered final for runway 15. On short final I added throttle and got no engine response. I made a very quick check of fuel shut off valve, mixture and keyed the starter with no response. I saw the aircraft was headed directly to the concrete revetment on the south bank of Bear Creek. I banked the aircraft left, striking the water nose down and with a left bank.

Two golfers entered the water from the north bank. The boy in the back seat unbuckled his seat belt, I opened the door and a golfer assisted him to shore. Water began entering the cabin when the door opened.

I unbuckled the boy in the left seat and opened the door and a golfer helped him to the bank.

I then unbuckled my harness and crawled out of the aircraft and swam 3-4 feet to the bank. As I got out the water was up to the bottom of the door window.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)

Was there Mechanical Malfunction/Failure? ☐ Yes ☐ No
 (If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
