Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft fuselage 75% destroyed by fire.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I departed KFTG about 0920 MST eastbound on the first takeoff to approximately 8-10 NM east of KFTG to check the navigation system indications on a Runway 26 ILS approach. That approach terminated with a normal touch and go landing followed by a second traffic pattern flight with the intention of conducting repeated touch and go landings. Following the second landing, a takeoff was initiated, the aircraft was rotated to the initial climb attitude and became airborne. At approximately 200-300 feet AGL near mid-field, I detected an unusual odor, looked inside the cockpit and saw flames forward of the pilot's side rudder pedals. I immediately rejected the takeoff, transmitted a Mayday message stating the airplane was on fire. I made a normal 3-point landing on Runway 26 between taxiways A5 and A4, exited the runway at A4, selected the fuel valve to off, shut down the engine with the mixture control, turned all the electrical switches off and exited the airplane. The fire continued to increase in intensity and most of the fuselage was consumed before the Bennett Fire Department arrived. The wing fuel tanks did not catch fire or explode. The airplane is a total loss.
