Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft was destroyed. leftwing was broken off. Fuel tank was compromised. Front cockpit was crushed.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Flight departed KCVB in clear weather with intention of making a local pleasure flight and returning to KCVB within 20 minutes or so. There was 1/2 tank of fuel or about 7 gallons and approximately 1 hour flight time with reserve. Approximately 6 minutes after departure the aircraft impacted terrain in a near vertical descent. The pilot has no recollection of the flight after confirming that the oil pressure was normal to the aircraft owner. He does remember a few seconds seeing the nose pointed straight down close to a tree line that was unavoidable. He said to himself " Boy, this is going to hurt ". He regained memory approximately 20 minutes after being pulled from the wreckage. There were no broken bones or internal damage. Upper tendon on left thumb was severed and sown up by BAMC trauma clinic. The pilot stated he had made some statements to TODD with the NTSB about the purpose of the flight but was what he imagined the purpose of the flight might have been. He has never landed this aircraft off airport and had no intentions of ever doing so.
