Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Prop Bent, spinner Bent, engine seized up, dented upon impact
Rt wing hole, dents in fuselage from impact front & rear

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

Arrived at Davis Aircraft the morning of to pick up plane
after having annual done. Bob Davis informed me oil drain
plug was seeping oil, so he replaced it. Said it was a
different style, but had done several retracts and it looked
to have about 1/2 inch clearance, so should be ok.
After walk around and pre flight, took off in clear blue
sky for short flight to home base of KREG. Approximately
5 minutes into flight engine starting over revving.
Pulled throttle back to compensate but immediately
after engine starting thrashing hard. This was
followed almost immediately with the engine
seizing up.

I declared an emergency with KBTR departure,
informed of number of souls on board (1) and informed
them I would be landing on IIOE.

Upon descent, I impacted the box of a 18 wheeler which
threw me to the right where I hit the ground with
landing gear and then proceeded to slide into the
tree line where I impacted a tree, coming to a sudden
stop.
