When we were on downwind of runway 13, I tried to put the gears down. However the nosewheel light kept closed. We tried swap the button of the light, it didn't work. Then we my instructor took controls. He retract the gear, then tried to put the gear down. The nose wheel was still up. Then we climbed to 5000 ft. He did all the check list and used emergency gear extension, the gear was still in up position. we did all the maneuver we could do to let gear down. But it didn't work. Finally he He land on the grass.
