I was outside letting the dog out. I heard the airplane and thought it sounded strange. I turned around and saw it hit the neighbors fence. Then I thought it was going to hit me so I ran to the side of the house. Then I saw it turn and hit our truck in the driveway. Then I called 911. I didn't see much after that because I was sitting on the side of the house. I would say the plane bounced off the fence and was about 10-12 feet off the ground. Then it turned and hit the right side of the green truck.

On 14 June 19 at approximately 1855 hrs I, Milford Sliker was unloading my truck in my Driveway when I saw a bright orange-yellow plane flying North to South over the air strip behind my subdivision. I watched as the plane made a sharp turn to its left (East) the plane looked low and it went out of sight ~~of my~~ ~~and~~ I waited approximately 5 seconds and heard a bang and then looked over and the plane had come down on top of a pickup and flipped. I drove over to help.

I saw the plane coming from Chisholm Dr N toward my house. I saw it circle around and it was really low. I saw it hit the fence then ran inside.

I was standing on the back deck of my home. I saw the aircraft flying north. As it passed my home it began a left turn and then continued south. As it passed my home again I noticed it was very low. After it passed my home it made a left turn back towards my home. It was very low and I saw it strike the ground and then hit our fence. I lost sight of the aircraft after that.

I was grilling on our back porch, looked over and the plane was approaching, already in the air and rising. It's pretty normal for them to fly that close, but the plane chose to turn just about in the center of our backyard, which I thought was weird. Pretty soon it drifted closer to the grass and burst through the wooden fence. I went inside and told my mom what happened, so she ran off to see. When I looked again the vehicle was tipped and the plane was down.
