

Memorandum of Conversation

Date: 4 Sep 2019

Time: 1400 central daylight time

Conversation Including: G.J. Salazar, MD; FAA

Conversation Regarding: CEN19LA179, N2360R

Summary & Factual Information from Conversation:

Dr. Salazar stated that the pilot, Mr. Anthony Angelo LaMarra, did not possess a current FAA medical certificate.

Mr. LaMarra applied for an aviation medical certificate on March 3, 2016; however, the aviation medical examiner deferred the issuance of the medical certificate to the FAA Aeromedical Division.

On June 27, 2016, the FAA sent a letter Mr. LaMarra requesting additional medical documentation to be provided in support of his application for an aviation medical certificate. Mr. LaMarra did not reply to the FAA letter nor did he provide the requested medical documentation.

On August 31, 2016, the Mr. LaMarra's application for a medical certificate was denied due to his failure to provide the requested medical documentation.

On June 27, 2017, Mr. LaMarra and his personal physician completed the BasicMed Comprehensive Medical Examination Checklist. Mr. LaMarra also completed the BasicMed online education course.

On August 11, 2017, the FAA Airmen Certificate Branch sent a letter to Mr. LaMarra informing him that he did not meet the requirements for BasicMed (Title 14 *Code of Federal Regulations* Part 61.113) and that operation of an aircraft without a valid aviation medical certificate could result in suspension or revocation of his pilot certificate.

--- End of interview summary ---

I can attest that the above summary and factual information was taken on the above stated day, and is correct to the best of my knowledge:
