Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

LH Wheel separated from aircraft
Substantial damage to vertical fin and fuselage aft of rear window.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

Aircraft departed KTXW @ approximately 1435 CDT for the purpose of relocation to the owners ranch. Flight was uneventful until at about 20 minutes into the flight the oil temper went all the way to red line. I reduced power and put mixture to Full Rich, lowered the nose slightly, did not help. I was equidistant from the nearest airport (672) and my destination. I elected to continue to destination. The engine briefly started to run rough, then quite entirely. I began to look for a place to land. The terrain in the area is hilly and there is quite a bit of small trees covering it. I aimed for the only open area available. Touched down at full stall, rolled a short distance, impacted a mound of rocks, which caused the aircraft to go on its back. Aircraft slid a short distance before coming to rest.
