The briefing we generated in conjunction with that flight plan being filed is here:

<https://s3.amazonaws.com/cdn.foreflight.com/weather/prod/pngb/briefs/2eb96a4d-7a20-4c75-b932-a509e77a343d.html>

Prior to the flight he did not view any static Weather Imagery in the app.

Prior to the flight he only planned a direct route from KNQA to KTOL into the app:

```\n

Date/Time (UTC) Updated Route String

9/11/2019 3:20:03 KNQA KTOL 7000FT

```\n

Let us know if you need anything else on this one,
